Hi Laurence,

Wow, it's great writing; to the point, full of self deprecating humour, vivid imagery and powerful introspection. Fucking hell, back in 87 i didn't know you were so at war with yourself. Thank christ your suicidal endeavours were so humourously incompetent. Keep on with it.

All best,

Al

Hi Laurence,

How goes? The last piece you sent was just like the first, very immediate and full of very filmic imagery and obviously candid experiences powerfully told.

Your style is like stephen king 6:57 pm

That was fascinating to read. I love your writing style, it's kind of warm even though the subject matter is dark, if that makes sense. Let me know if you upload more. I don't have tumblr atm.

Hi Laurence. I am doing ok thanks, in the circumstances, getting a bit chubbier than I would like but what can ya do. I have just read your blog. I love it - beautifully written, so eloquent. Insightful, heartbreaking at times and funny at times. I feel like I am in the room with you. I have no more room for apps on my shite little tablet so I will keep the link and revisit Baldrick for more thoughts. I wonder if the man who thought he was a hat stand will ever feature xx

I love your blog Laurence.. you are so brave to talk about it.. thank you for sharing 🥰❤️xx 7:17 pm

Hi Laurence, not quite lost the plot, but it's a close run thing! Thanks for emailing me and the blog link.... it's really interesting, not to mention enlightening. Do keep going and I'll keep checking in....take good care, love Claire xxxxx

6:03 pm

Hi Bro. Thank you for inviting me, I am reading it with a new understanding of you. It's brave and honest of you to express yourself to others so openly. Please keep writing as you feel. As for lockdown Mk 3, it all just seems to meld into one, New day same day...if that makes sense....! Keep well, love you Mate x.

I like that its baldricks blog & it was good like a sci fi movie (must have been scary tho) my recent topic for creative is "he / she is more than just a dog " i wrote about our dog shadow but i am gonna write about baldrick too & read out the best one

1:15 pm

Hi Laurence,

Hope all well and staying safe during Lockdown shitshow number 3. You're writing is brilliant, latest story continuing with terse dialogue, economical, taking us on an enlightening, revelatory journey, all in the space of a page and a half of a4. It's also fucking funny and at times sinister. Love the anecdotal nature and the punk playlist :-). If you retain this diary format style, I reckon you could write a whole book. Wow, did you really get your diploma? Freud was always fucked up!

All best,

Al

Cheers Laurence, keep writing mate it's quality believe me!

Al

A lot of writers would've spent a whole chapter just explaining their predicament, which is boring you don't, you cut to the chase and explain via immediate experience with a candid, wry down to earth voice.

After successful field trials, my blog is now open. I've posted some of the shorter bits on FB, but it's probably not the right place for the longer ones, and I don't want to fill anyone's feed with what some might consider to be utter bollocks. It's unashamedly subjective and contains content which some might find offensive, so no complaints please.

Afternoon lovely. Hope all's well with you. When you've got a few spare minutes, I'd be grateful if you could give me your opinion on my new website. I'm especially looking for feedback on how it looks on various devices, as my design "skills" are 20 years out of date and from a time before smart phones and tablets. ❤️
